Western Healthcare® Named Emergency Department Physician Staffing Partner for Mt. Grant General Hospital

(DALLAS, TEXAS) – Western Healthcare®, a leading national provider of physician staffing services, is pleased to announce a new partnership with Mt. Grant General Hospital in Hawthorne, Nevada. Effective November 1, 2023, Western Healthcare will be staffing Mt. Grant's Emergency Department with an all physician group, allowing for 24/7 coverage and patient-focused care to the Hawthorne community.

"We are excited to be partnering with Western Healthcare to give our patients and Mineral County the best possible healthcare they deserve. We're particularly excited to bring on more physicians to serve our residents, as our rural facility has had mainly advanced practice providers and one remote physician to cover the entire population," said Denise Ferguson, CEO and Administrator, at Mt. Grant General Hospital. "It's refreshing to find a staffing company that cares about our patients as much as we do, especially with the next ER being one hour away."

Privately-owned and operated in Dallas, Texas, Western Healthcare provides a wide range of healthcare staffing services including temporary staffing, disaster response, government staffing, and contract management since 2008. With its primary focus in emergency medicine, hospital medicine and anesthesia, Western Healthcare supports nearly 2,000 clients across the United States.

"What sets Western apart is the ability to not only find quality, experienced healthcare providers, but providers that truly want to be a part of the community and blend in with the hospital staff seamlessly. This helps deliver a fruitful, long-term solution for all parties involved," says Trey Davis, CEO and Co-Founder at Western Healthcare. "We are honored that Mt. Grant shares the same mindset and chose us to be the catalyst of change for its facility and citizens."

Western will be working closely with MGGH's Chief Medical Director, Sharon Ruch, MD, to establish and maintain hospital goals according to its mission.

About Mt. Grant General Hospital

Mt. Grant General Hospital is an approved National Health Service Corps (NHSC) Critical Access Hospital site and Rural Health Clinic that provides comprehensive outpatient, ambulatory, and primary health care services to its 4,500 citizens in addition to those traveling to Las Vegas. The hospital has 11 licensed acute beds and 24 long-term care beds. MGGH was designated as one of the nation's top 35 Critical Access Hospitals in 2005. Learn more at www.mggghnv.org.
